Charles N Wyble Consultant Information Sheet

Introduction

Hello,

Thank you very much for reaching out to me on this platform in regards to doing some consulting work for you !

I have been receiving a high number of inquiries and have developed a standardized response letter to help ensure alignment and save everyone time and to reduce back and forth emails/texts/calls in the early stages.

If you have any introductory questions/comments/concerns not covered by this document, please let me know and I'm happy to address them!

If you ask me something answered in this reply, I will not respond to you and will not move forward with the engagement, so please read it carefully!

Re: share my ID over email

I am a US Citizen (by birth).

I am happy to get on a teams/zoom/google meet etc call and show my ID.

I WILL NOT share my (full or redacted) photo ID over email or any other electronic written communication. If that is a "requirement" then I have no interest in moving forward with this engagement and no further communication is necessary.

Re: professional references

I am happy to provide project/professional references once an engagement letter has been signed. The engagement letter has a contingency clause allowing the client to back out if the reference review doesn't meet their requirements.

I will NOT provide project/professional references up front. If that is a "requirement" then I have no interest in moving forward with this engagement and no further communication is necessary.

- The full re-location benefit **must be provided prior to the confirmed start date.**
- I **will NOT** accept a reimbursement based re-location package.
- I am happy to come onsite (at client expense (paid up front)) for training/orientation etc.
